

# COVID-19 infection prevention Policy as our Forum

Addition to “Tokyo Tech’s rule, we define our Policy as follows.

We’d like every participant ensure to follow both Policies during the Forum

- Check when entering the program venue
  - Check Item: Body temperature measurement (visual, self-report)
  - Suitable for: conference room, bus for Technical tour
  - Mentor interview, student WS are not eligible
- Venue ventilation
  - Ventilation is carried out by opening the doorway between programs
- Health check before departure
  - Manage your own physical condition, contact and declare if there is a problem
- Physical condition management during the forum
  - Manage your own physical condition, contact and declare if there is a problem
- Support during program implementation in the conference room
  - In accordance with the regulations of Tokyo Institute of Technology, basically wearing a mask
  - The presenter is allowed to remove the mask and make a presentation by keeping a distance of 2m or more from other participants.
  - When asking questions, use the microphone while wearing a mask, and disinfect the microphone as appropriate.
- Correspondence of meal (buffet-style)
  - Confirm the provisioning environment and accept it on the condition that appropriate specialization is possible.
