

Academy of Energy and Informatics Special Lecture

Date : Wed. **27August**, 2025 Time : 16:00-17:30

Venue: Ookayama Campus West Bld. 9. Digital Multi Purpose Hall

We are so pleased to announce the Special Lecture hosted by the Academy of Energy and Informatics. This year, we will invite the pioneer of Deep Tech in Japan, Dr. Yoshiyuki Sankai, who is the Professor of University of Tsukuba, President and CEO of CYBERDYNE Inc., and Program Director of the SIP (Cross-ministerial Strategic Innovation Promotion Program) at the Cabinet Office, Government of Japan. His speech will cover the technology on "Wearable Cyborg™" and entrepreneurial experience when researchers in academia start the business based on their leading edge technology. Do not miss this rare opportunity to dramatically increase the value of your research.

Pioneering the Future through the new frontier "Cybernetics" ~ Fusion of HCPS, Sci-Tech Innovation, Creation of New Industries, Global Collaboration ~

Invited Speaker

Yoshiyuki SANKAI, Ph. D. 山海 嘉之 博士

- * Professor, University of Tsukuba, Japan
- * Executive Research Director of Center for Cybernetics Research, University of Tsukuba, Japan
- * Director of F-MIRAI Center (established by TOYOTA), University of Tsukuba, Japan
- * President and CEO of CYBERDYNE Inc.
- * Program Director of SIP (Cross-ministerial Strategic Innovation Promotion Program), Cabinet Office, Government of Japan
